Re: The Mount Calvary Baptist Church Tragedy

To Whom It May Concern:

You are being copied on a letter to the individual who in my opinion is claiming to be the pastor of Mount Calvary Baptist Church in Lexington, KY where I am a member in good standing.

The letter is in response to information I have received from a ~~reputable and knowledgeable source~~ regarding a horrific tragedy which occurred at the church several weeks ago.

Based on information I have personally collected and detailed in the letter, I believe the tragedy did in fact occur and is furthered week after week as visitors to the church are murdered and their bodies unlawfully disposed of.

I ask that you read the letter in its entirety. It may seem unbelievable, but you should know that I currently have no known living family members, friends or associates that I've known for more than five years. The individuals I know currently work for the US Government or the Central Intelligence Agency in some capacity or another.

There should be supporting evidence of the tragedy in missing persons reports filed in and around central Kentucky with a common last seen date of a Sunday several weeks ago. The individuals described therein are likely to be African-American and were last known to be going to church services at Mount Calvary Baptist Church, located at 4742 Todds Road in Lexington, KY.

As detailed in the letter I am inviting law enforcement into the church to investigate. As a member of the church and an ordained minister this should satisfy any concerns regarding the separation of church and state.

To the members of the media, I implore you to ignore and not succumb to government pressure to ignore this letter or any of the activities detailed therein. I personally know that there will be some, as

I've encountered an increasing amount of hostility as I made every attempt to write the letter, including multiple attempts on my life, including Air Force activity over a public library yesterday in Riverdale, GA.

Sincerely yours,

Kelvin Eugene Williams

Rev. Dr. Felix G. Williams, III
Mount Calvary Baptist Church
4742 Todds Road
Lexington, KY 40509

Dear Rev. Williams:

I pray that this letter finds you and the other members of Mount Calvary Baptist Church well. However, I have been told of a recent event which has prompted me to write you.

I, unfortunately, now find myself living in a world without any family and every friend or associate is missing, often impersonated. The only people I know, and it seems, every person I've met in the past five years are all CIA.

The narrative of the event goes as follows: One Sunday several weeks ago, a couple visited the church during morning worship services. At some point during the service they coordinated with individuals outside the church and launched an all out assault on everyone in attendance.

After blocking all of the exits, they systematically beheaded everyone at either the bench of the piano or the organ. They then used the baptismal to chemically cremate the bodies. I'm told that you were extremely tortured and interrogated about the church's operations and financials, and your relationship to me. After the interrogation you met the same fate as all the others.

After the murders, the church's piano and organ were removed and the sanctuary was cleaned and made to look as though nothing occurred. Individuals began conducting mock services and producing videos in an effort to portray normal activities. It should be noted that the number of videos produced in any day can far exceed the number of Wednesdays and Sundays in a week. This was done, and continues to this day, to kill any remaining members or those with a relationship with Mount Calvary Baptist Church that visit.

One would normally disregard a narrative such as this as the ramblings of a paranoid or otherwise insane individual, but the source here is very sane and knowledgeable of government activities of the highest classification. As earlier stated, everyone I know is "missing" but these are not the types to go missing, they must be dead.

I decided to check into the story and have been horrified that such an act as in fact occurred. As a member in good standing of the church I'm required to investigate and take some actions.

I ask that in your response you copy all of the law enforcement agencies, offices, and media outlets I have copied on this letter as I'm inviting them into the church to investigate should they find this letter, the attached evidence or your responses worthy of such. As you know, I am a member of the church and a member of the clergy, so my invitation here is for their purposes of investigating the event should address any concerns the State, albeit the Commonwealth of Kentucky, may have about any investigation or State activity on Church property.

When searching for the church's website, I found a "Mount Calvary Missionary Baptist Church" at an address which would be across the road from Mount Calvary Baptist Church, although the exterior of the church and video or photos of the interior clearly indicate our, Mount Calvary Baptist Church, although the interior has some disturbing changes which support the narrative I received about the aforementioned event.

The first thing I noted was that the organ, which I thought to be a permanent fixture (something immovable and never removed from a church) was missing. The piano also was missing. In their place at the front of the church were the oversized pews that were located and attached to the very back wall of the church. The pews are facing the rear of the church.

In addition, I found in the videos that the church's altar and lectern are completely different and made from a lesser-quality wood than I remember. The altar appears to have been built to fit between the two rear-facing pews. It no longer bears the inscription, "DO THIS IN REMEMBRANCE OF ME" but just, "IN REMEMBRANCE OF ME." These two items are also never replaced in a church after its construction. The last time MCBC replaced any of these items was then the original church burned to the ground.

The baptismal is covered in several videos with a black material. Something I never recall being done. In the photograph it appears as if there are two large letters: "FU." This is something that could convey the wrong message to a visitor, or it's an intentional message for me.

The choir stands appear to have been gutted and the front of replaced. In the right choir stand an organ, although in some videos, I see keyboards on top of it. The organ is smaller and darker than the organ I remember being there. Both choir stands have extremely cheap looking wire crosses and signs that you'd expect to find in a parking lot, not in the front of a church. The wall has always been bare.

I've also found signage in the videos for COVID-19 and social distancing, along with standing locations in the pews that assist with social distancing.

During services I have found new practices that are different from anything I recall from all of my years of active attendance at the church. There is hardly ever a choir in the left choir stand (the one always used), and when I have seen a choir there they lacked the robe worn at every service—including the Easter Sunday service I watched.

Additionally, your robe is never seen worn. I did see one video where you're wearing a very vibrant multicolored robe, but nothing like the robe I remember you receiving after receiving your doctorate degree. I have seen you wearing nothing with the doctorate insignias. This is completely foreign to me since I never once seen you deliver a message from the pulpit without wearing that robe since you received it.

I am convinced the videos are a charade and are being produced simply to portray normalcy at the church and lure in anyone who may be affiliated with the church, and further the activities started that tragic Sunday morning.

As a member in good-standing, I must act as follows:

- I am now questioning your identity and therefore removing you as the pastor of the church until you consent to and provide an oral swab for DNA testing to confirm you are in fact the Rev. Dr. Felix G. Williams, III.
- I am removing any other pastor and/or deacon installed until your identity is confirmed.
- I am installing myself, Kelvin Eugene Williams, as an interim pastor solely for the purpose of inviting the Commonwealth in to conduct an investigation into the validity of the narrative I've detailed herein and any missing persons reported as affiliated or known to be affiliated with the church.
- Further, I am formally objecting to any and all property transfers and demanding a freeze to all church expenditures except for those made by personnel authorized to do such and employed by the church on or before October 1, 2022. Disbursements of church funds may only be made to those entities for the typical amounts for the upkeep of the church (ie. Janitorial services, utilities, landscaping, etc.).
- Any and all tithes, offerings, and/or donations to the church should be accounted for and deposited into the church's general fund and associated bank accounts, which MUST have been opened prior to October 1, 2022.

As the only member that I know to be alive and a member prior to October 1, 2022, I believe I constitute a quorum and majority of the voting membership. I will require any member that contests my votes or actions to be well known as a member of the church (as evidenced by cancelled checks for tithes, etc.) for at least five years.

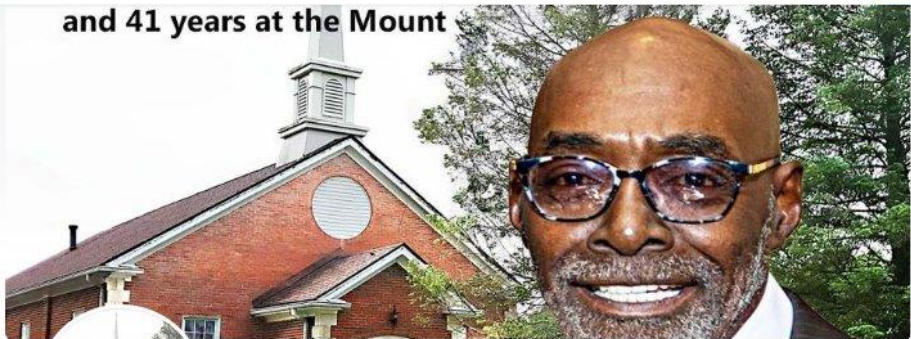

Again, I ask that you respond in writing to the foregoing and copy all law enforcement and media copied on this letter.

Sincerely yours,

Kelvin E. Williams

and 41 years at the Mount
